Education Solution Guide 2024

Supporting Education to deliver better outcomes.

Find out how Zyxel Networks can help you deliver better learning experiences and improved ROI from your technology investment.

Zyxel Networks has a range of products and programs designed to support the Education sector in getting the very best results from their continued investment in technology. Budgets are always under pressure, so it's vitally important to make the best possible use of the available funds. Fast, efficient networking technology is essential in Education today to ensure that pupils and teachers can make the very best use of the learning solutions available to them.

With Zyxel Networks, you can have the best and latest technologies without paying a premium. Our switches, wireless and security solutions are designed to provide enterprise-class performance and reliability at affordable prices, giving you the best of both worlds.

They're also easy and cost-effective to install and manage through our Nebula cloud platform – and with special offers, including discounts and bundles available to Education customers, they become an even more attractive proposition.

Special offers, including discounts and bundles for Education customers, help provide both enterprise-class performance and reliability at affordable prices.

Enterprise-class performance and reliability.

Different combinations of our latest WiFi 7 access points, multi-gigabit switches and unified security gateways are available, providing options for all kinds of use-case scenarios, from simple connectivity for the classroom to whole-campus coverage that gives pupils the ability to work anywhere with good, consistent, secure access to online resources at all times.

Zyxel Networks products also come with various licensing options for our Nebula cloud management platform, making it easy to select a package that is just right for your needs.

WiFi designed to deliver in Education.

Whether it's the very latest WiFi 7 technology or WiFi 6/6E that you require, Zyxel Networks has a range of fast and affordable access points that will meet your needs. Many of these solutions are available as part of special bundled offers and also come with extended warranty and remote management through our Nebula cloud platform.

Complete management & support with Nebula.

Nebula, our cloud management platform, makes it easy for administrators or IT solutions and services providers to configure, install and manage network devices and monitor the entire network to ensure high levels of efficiency and security are maintained.

Nebula is simple to use on any device, including smartphones, and can be used to monitor and manage the entire network remotely, allowing you to take advantage of expert help whenever you need it and cutting down on the need for site visits. In this way, Nebula saves you both time and money. The basic license is free with all our Nebula-enabled products, and offers are available to Education customers that provide extended Nebula Pro licenses at special discounts.
